2. Basis of presentation of consolidated financial statements

2.1 Basis of presentation of financial statements

The interim condensed consolidated financial statements of the Group have been prepared in accordance with the Turkish Accounting Standards/Turkish Financial Reporting Standards, (“IAS/IFRS”) and interpretations as adopted in line with international standards by the Public Oversight Accounting and Auditing Standards Authority of Turkey (“POA”) in line with the communiqué numbered II-14.1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) announced by the Capital Markets Board of Turkey (“CMB”) on June 13, 2013 which is published on Official Gazette numbered 28676. IAS/IFRS are updated in harmony with the changes and updates in International Financial and Accounting Standards (“IFRS”) by the communiqués announced by the POA.

With the decision taken on March 17, 2005, the CMB announced that, effective from January 1, 2005, the application of inflation accounting is no longer required for listed companies in Turkey. The Group’s interim condensed consolidated financial statements have been prepared in accordance with this decision.

The Group has prepared its condensed consolidated financial statements for the period ended on June 30, 2020 in accordance with TAS 34 “Interim Financial Reporting Standards”.

The Group’s interim condensed consolidated financial statements are presented in terms of Turkish Lira “TL” which is the functional and presentation currency of the Company and its subsidiaries.

The interim condensed consolidated financial statements are prepared on cost basis in thousands of Turkish Lira (TL), except of financial assets and liabilities shown in fair value.

2.2 Summary of significant accounting policies

The interim condensed consolidated financial statements of the Group for the six-month period ended June 30, 2020 have been prepared in accordance with IAS 34 “Interim Financial Reporting”. Additionally, the accounting policies used in the preparation of the interim condensed consolidated financial statements for the period ended June 30, 2020 are consistent with those used in the preparation of annual consolidated financial statements for the year ended December 31, 2019. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2019.

2.3 New and revised Turkey Financial Reporting Standards

a) *Standards, amendments and interpretations applicable as at June 30, 2020*

Amendments to IAS 1 and IAS 8 on the definition of material; effective from Annual periods beginning on or after 1 January 2020. These amendments to IAS 1, ‘Presentation of financial statements’, and IAS 8, ‘Accounting policies, changes in accounting estimates and errors’, and consequential amendments to other IFRSs:

- i) use a consistent definition of materiality throughout IFRSs and the Conceptual Framework for Financial Reporting;
- ii) clarify the explanation of the definition of material; and
- iii) incorporate some of the guidance in IAS 1 about immaterial information.

These amendments do not have any significant impact on Group’s financial condition and performance.

Amendments to IFRS 3 - definition of a business; effective from Annual periods beginning on or after 1 January 2020. This amendment revises the definition of a business. According to feedback received by the IASB, application of the current guidance is commonly thought to be too complex, and it results in too many transactions qualifying as business combinations. The Group will evaluate the effect of the amendments above and apply from effective date.

Amendments to IFRS 9, IAS 39 and IFRS 7 – Interest rate benchmark reform; effective from Annual periods beginning on or after 1 January 2020. These amendments provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement. Given the pervasive nature of hedges involving IBOR-based contracts, the reliefs will affect companies in all industries. These amendments do not have any significant impact on Group’s financial condition and performance.

Amendment to IFRS 16, ‘Leases’ – Covid-19 related rent concessions; effective from Annual periods beginning on or after 1 June 2020. As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs. These amendments do not have any significant impact on Group’s financial condition and performance.

2. Basis of presentation of consolidated financial statements (continued)

b) *Standards, amendments and interpretations that are issued but not effective as at 30 June 2020:*

IFRS 17, ‘Insurance contracts’; effective from annual periods beginning on or after 1 January 2022. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

Amendments to IAS 1, Presentation of financial statements’ on classification of liabilities; effective from 1 January 2022. These narrow-scope amendments to IAS 1, ‘Presentation of financial statements’, clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the ‘settlement’ of a liability. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 17 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16; effective from Annual periods beginning on or after 1 January 2022.

- **Amendments to IFRS 3,** ‘Business combinations’ update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- **Amendments to IAS 16,** ‘Property, plant and equipment’ prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
- **Amendments to IAS 37,** ‘Provisions, contingent liabilities and contingent assets’ specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, ‘First-time Adoption of IFRS’, IFRS 9, ‘Financial instruments’, IAS 41, ‘Agriculture’ and the Illustrative Examples accompanying IFRS 16, ‘Leases’. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

2.4 Significant changes in the current period

Necessary actions were undertaken by the management to minimize possible effects of Covid-19 on the Group’s operations and financial status. Despite the developments and slowdown in LGP sector and general economic activity due to Covid-19 pandemic, there were no disruption in LPG supply processes but there were some periodical fluctuations in the sales activities due to contracting demand. Especially during the lockdown period, autogas market contracted while cylinder gas market showed a partial growth due to increasing domestic demand. In the meantime, actions were undertaken by the Company to minimize the investment expenditures, operational cost and the increase in the inventory. Cash management strategy was reviewed to strengthen the liquidity position. As the measures taken to prevent the spread of the pandemic are reduced, production and sales operations are continuing without any interruption while the recovery in demand is affecting the Company’s operations positively.

No estimates can be made regarding the duration and the range of spread of the Covid-19 neither globally nor for Turkey. It will be possible to make a more specific and healthy evaluation for the medium and long term as the strength and the duration of the impacts get clearer. However, the Group evaluated the possible effects of Covid-19 pandemic on its financial tables and assessed the estimates and assumptions used during the preparation of consolidated financial tables. In this framework, no impairment was detected in the interim consolidated financial tables dated June 30, 2020.

Corporate tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated tax charge based on the Group’s results for the years and periods.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

The effective rate of tax in 2020 is 22% (2019: 22%).

In Turkey, advance tax returns are filed on a quarterly basis. The advance corporate income tax rate in 2020 is 22% (2019: 22%). Losses are allowed to be carried 5 years maximum to be deducted from the taxable profit of the following years. Tax carry back is not allowed.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may examine such returns and the underlying accounting records and may revise assessments within five years.

19. Tax assets and liabilities (continued)

Deferred tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between the financial statements as reported for IAS/IFRS purposes issued by POA and financial statements prepared in accordance with the tax legislation. These differences arise from the differences in accounting periods for the recognition of income and expenses in accordance with IAS/IFRS and tax legislation.

In accordance with the regulation numbered 7061, published in Official Gazette on December 5, 2017, "Law Amending Certain Tax Laws and Certain Other Laws", corporate tax rate for the years 2018, 2019 and 2020 has increased from 20% to 22%. Therefore, deferred tax assets and liabilities as of June 30, 2020 are calculated with 22% tax rate for the temporary differences which will be realized in 2020, and with 20% tax for those which will be realized after 2021 and onwards (31 December 2019: 22%)

Foreign currency sensitivity:

The Group is mainly exposed to foreign currency risk in USD and EURO.

The following table details the Group’s sensitivity to a 10% increase and decrease in the USD and Euro. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management’s assessment of the possible change in foreign exchange rates. The sensitivity analysis only includes outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower.

A positive number indicates an increase in profit/loss and other equity accounts.

Information for reflecting financial assets and liabilities at fair value

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The estimated fair values of financial instruments have been determined by the Group, using available market information and appropriate valuation methodologies. However, judgements are necessarily required to interpret the market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Group could realize in a current market exchange.

Following methods and assumptions were used to estimate the fair value of the financial instruments for which is practicable to estimate fair value:

Financial assets

The carrying amounts of foreign currency denominated monetary assets which are translated at year end exchange rates are considered to approximate their fair values.

The carrying values of cash and cash equivalents are estimated to be their fair values since they are short-term.

The carrying values of trade receivables along with the related allowances for uncollectability are estimated to be their fair values.

Financial Liabilities

The carrying values of short-term financial liabilities and other financial liabilities are estimated to be their fair values since they are short-term.
